Batch Plants

**for the automatic production of
homogeneous glass batch**

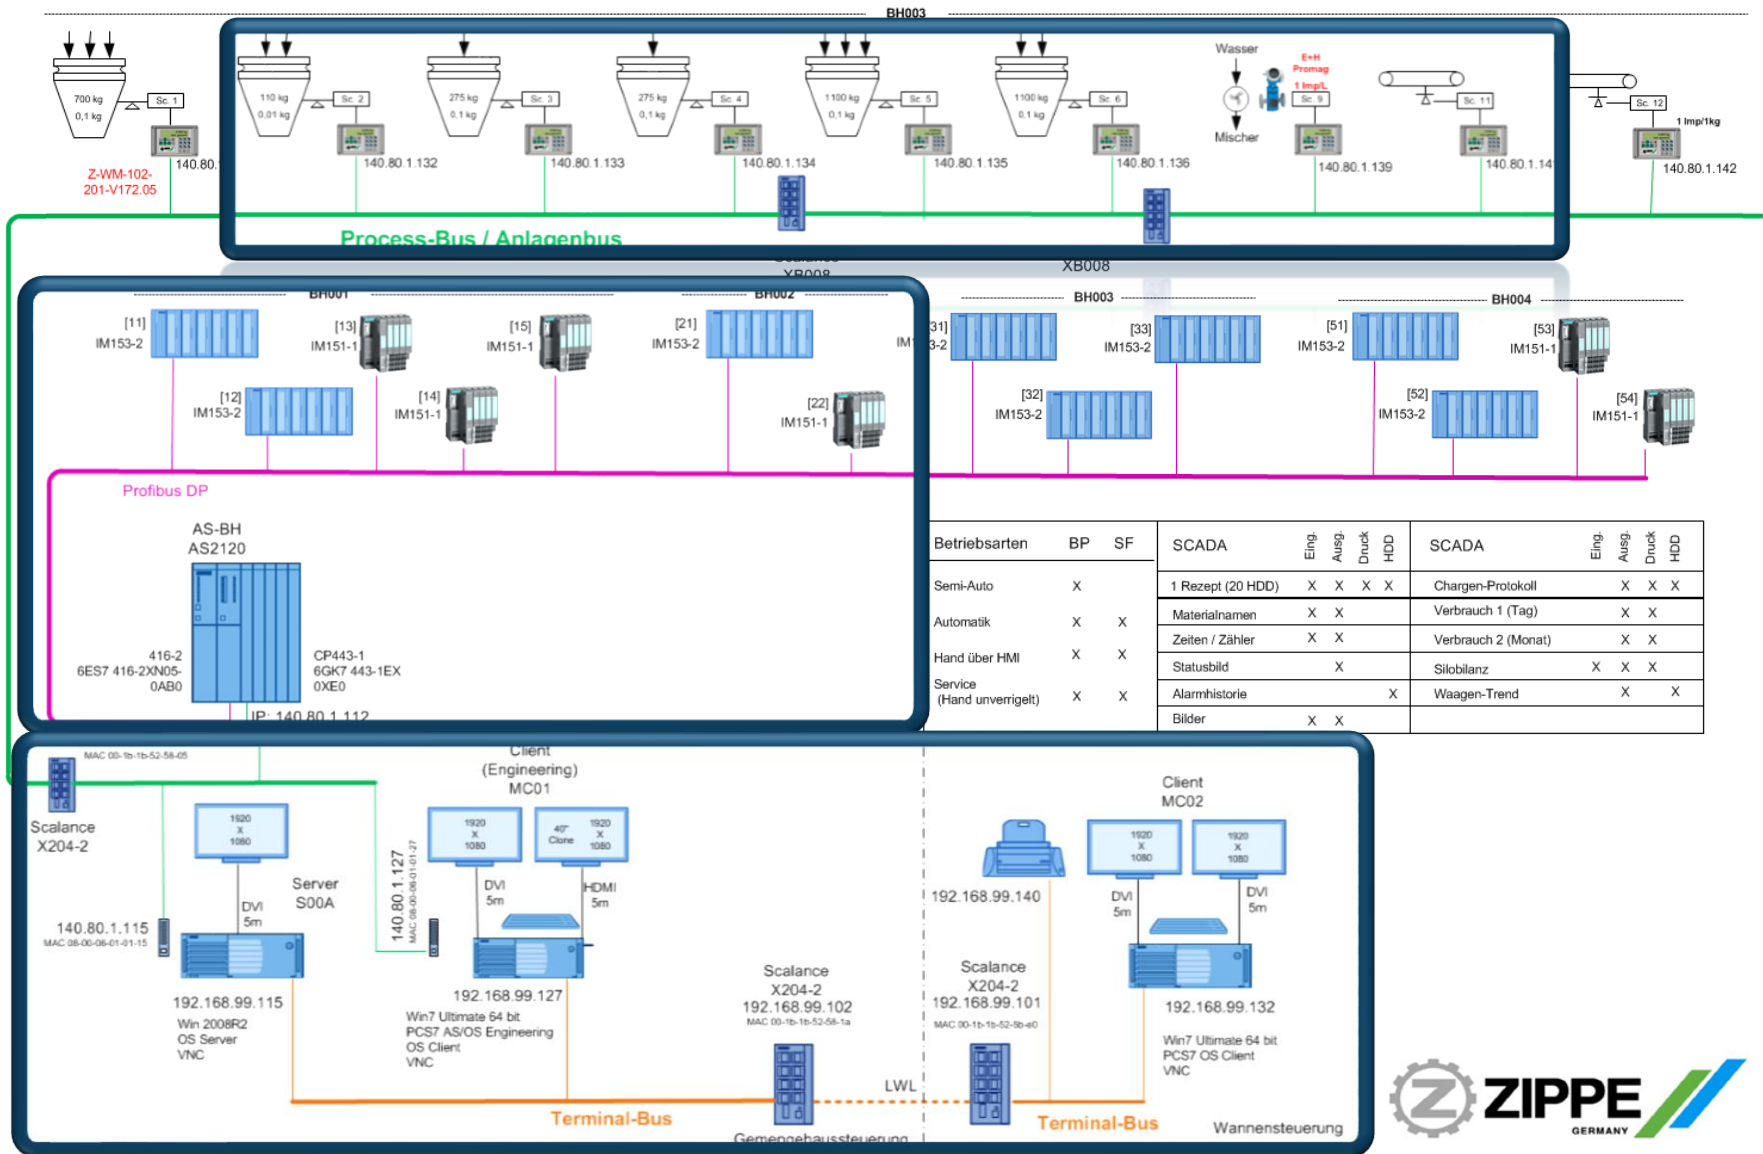

Batch Plant Design

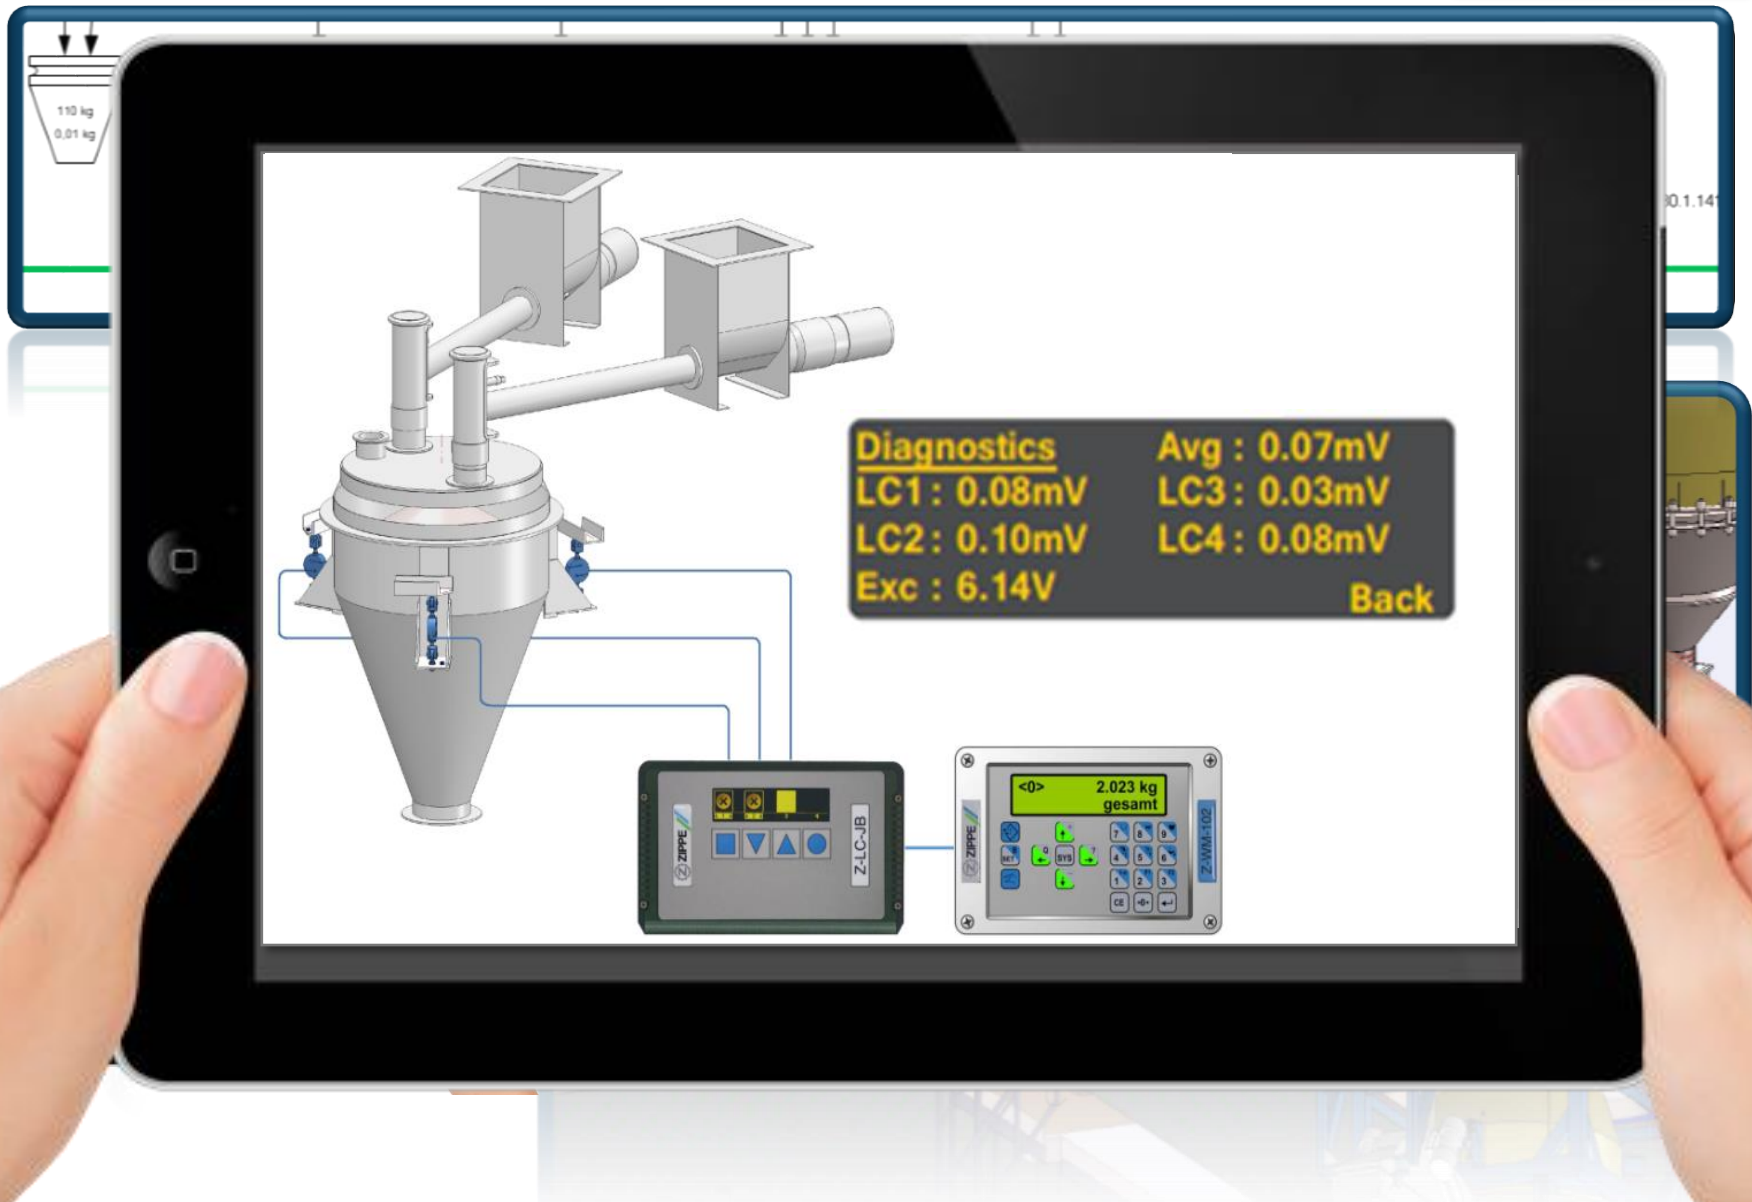

Automation & Control Technology

**To control perfection.
To switch the future.**

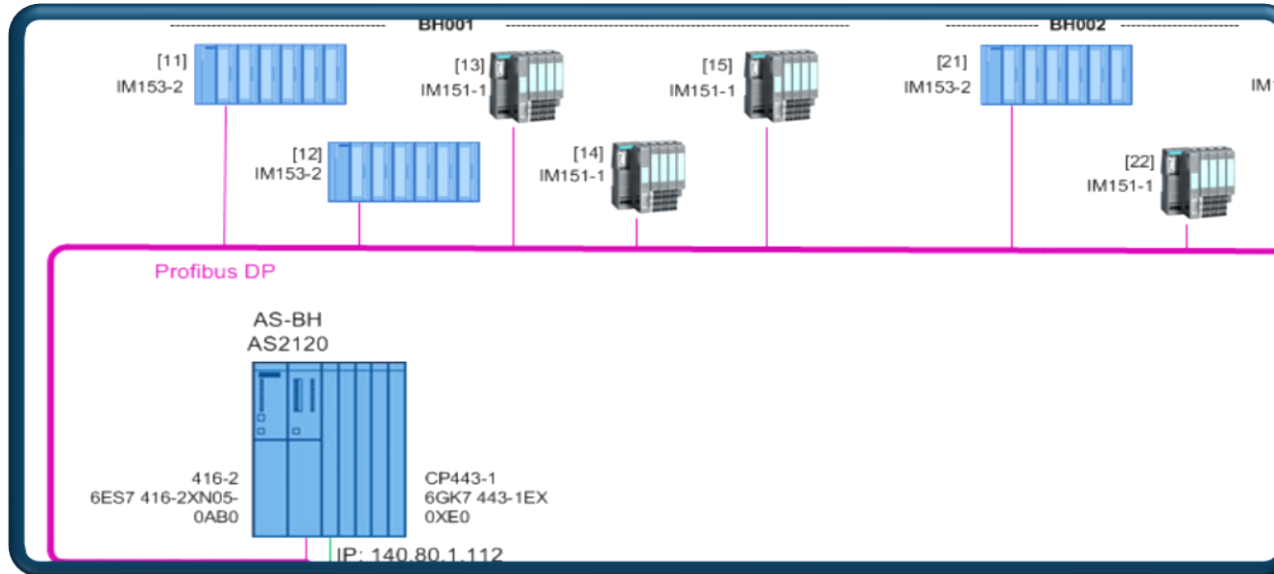

Modular Main Components

Weighing components

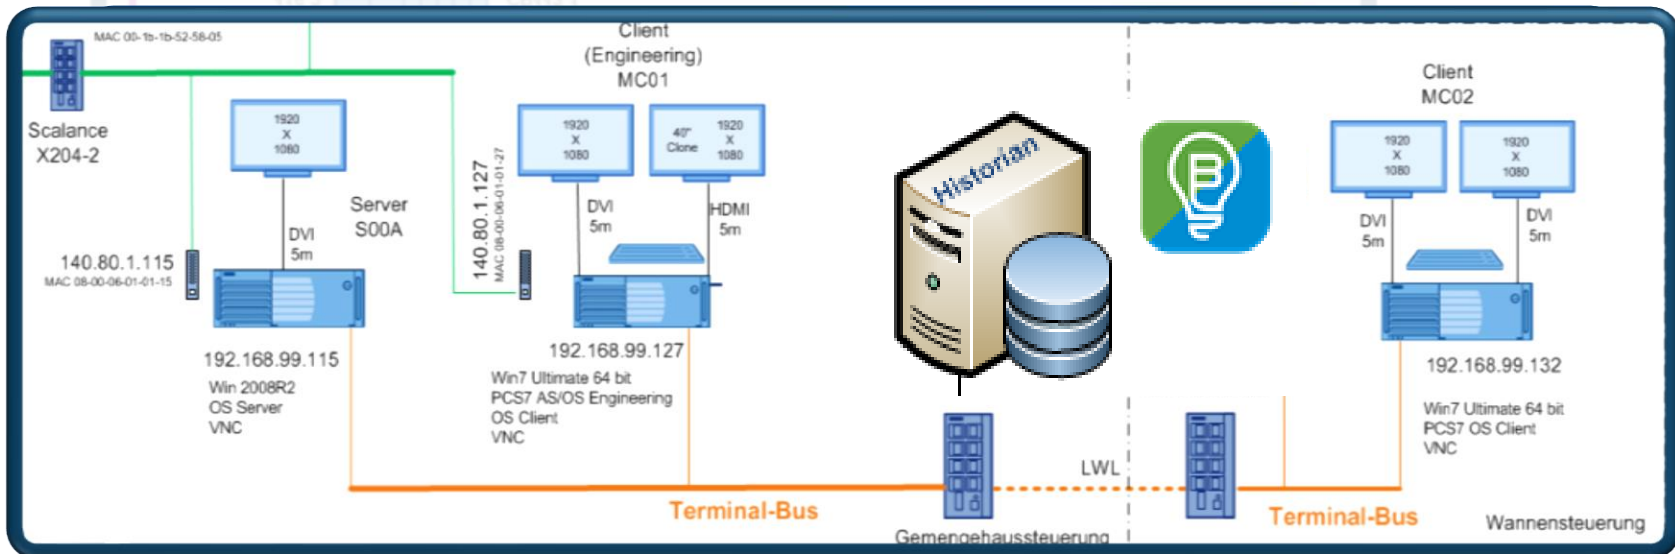

PLC:

KOGAWA ◆

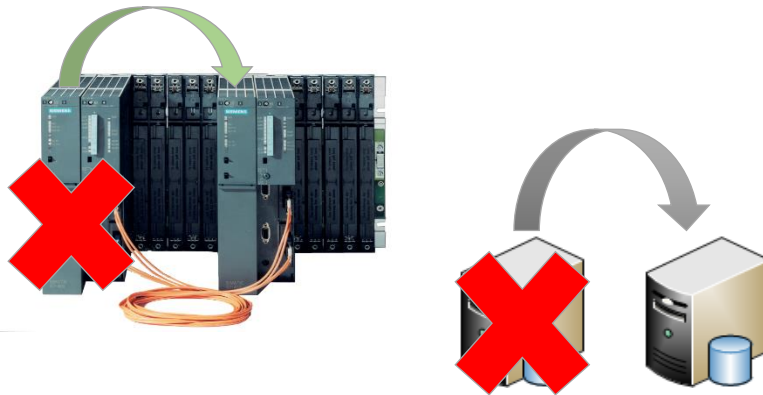

SCADA & DCS System:

Hardwired Redundancy

- Easy commissioning
- Easy and intuitive to use
- High reliability
- Quick overview in emergency case

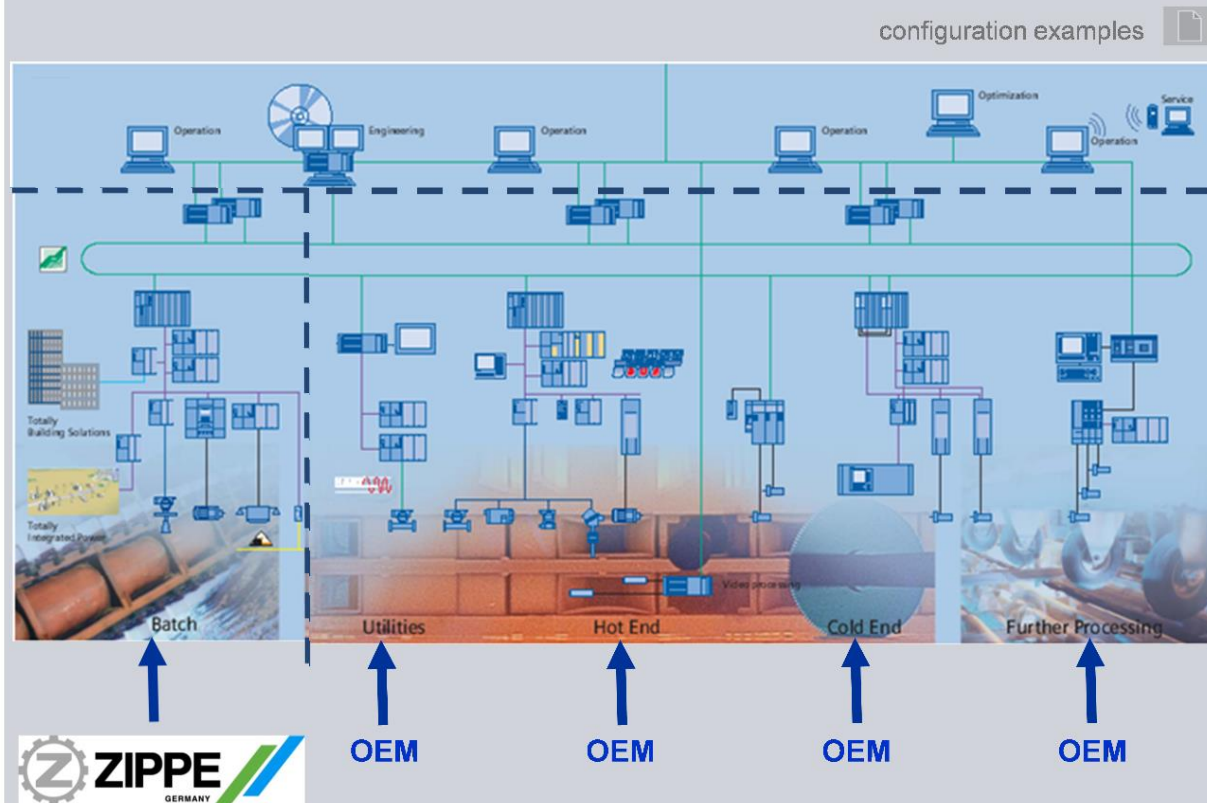

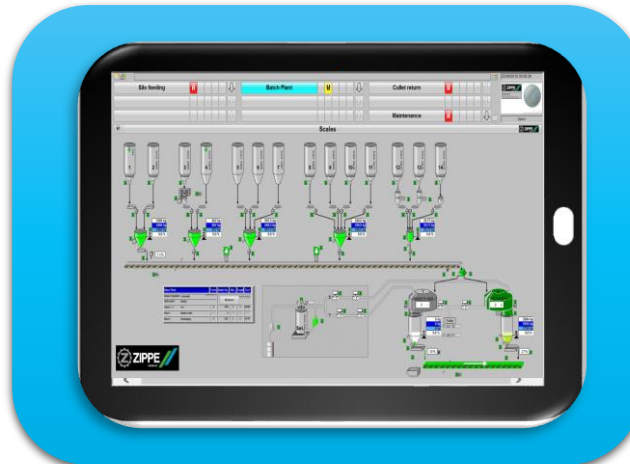

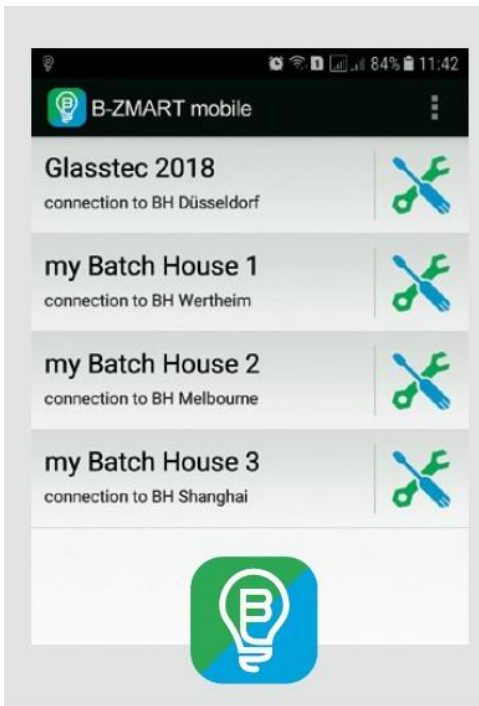

Redundant PLC and SCADA

- ✓ High availability
- ✓ Maintenance during production

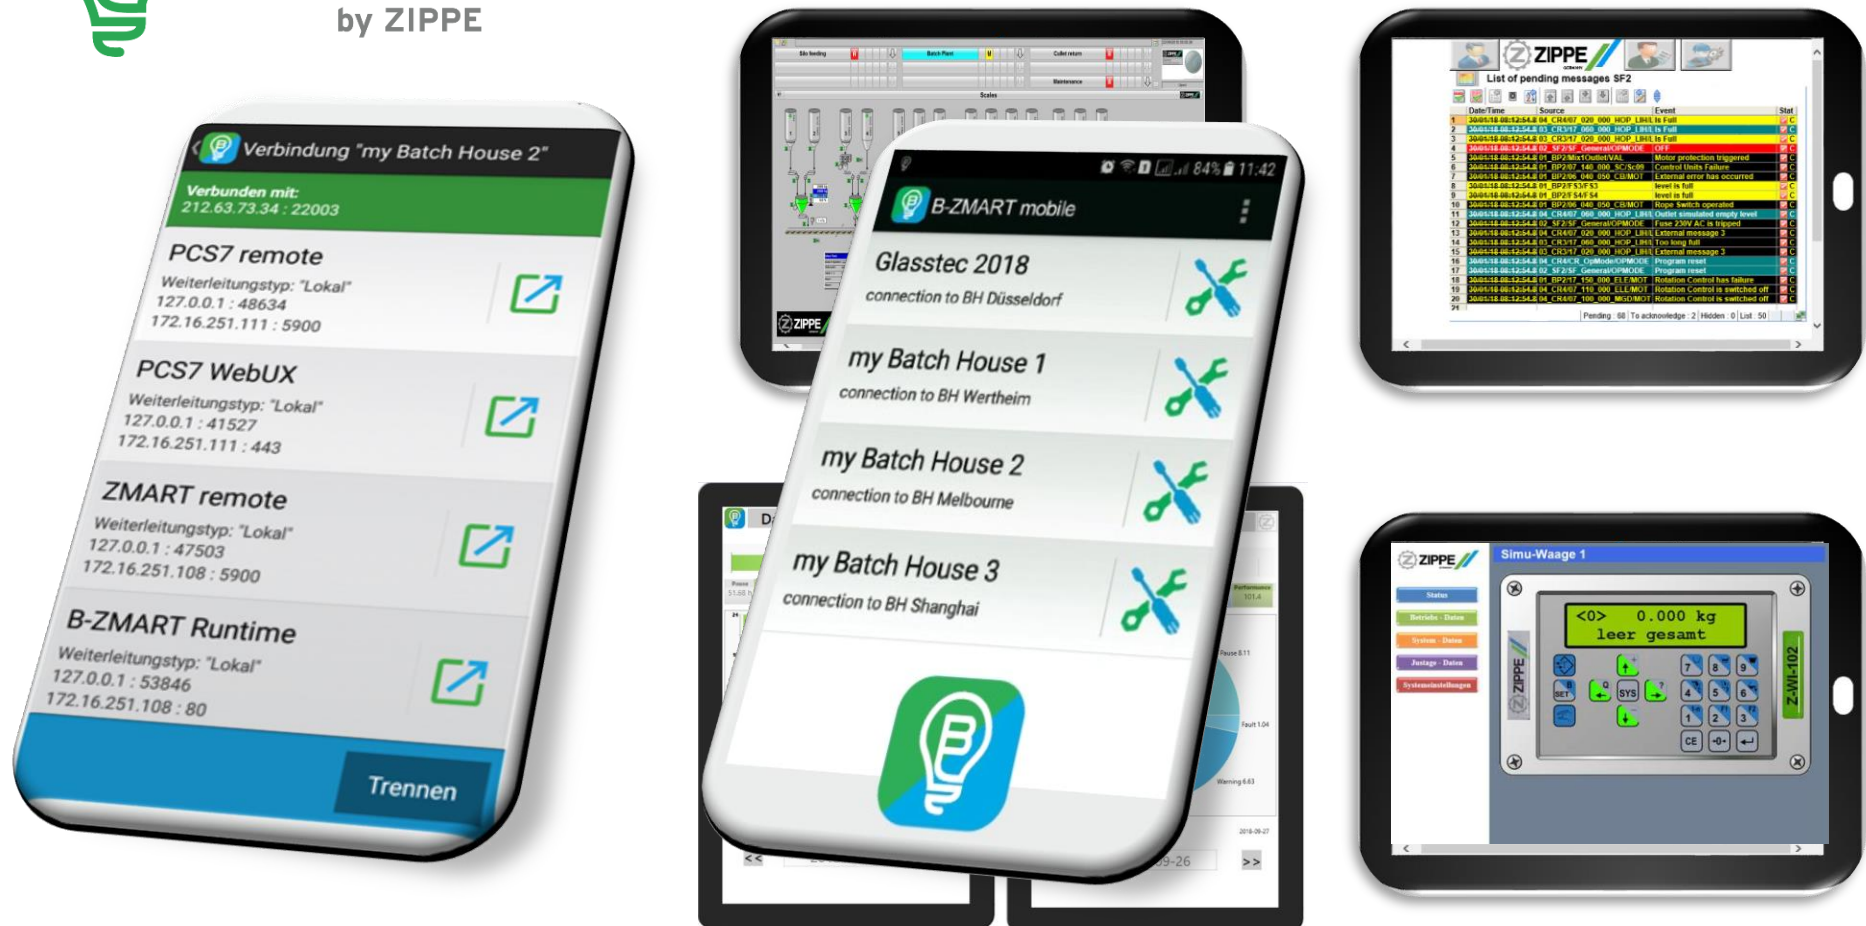

Plant wide integrated automation

Plant wide integrated automation from raw material to final products including deliveries by named OEMs

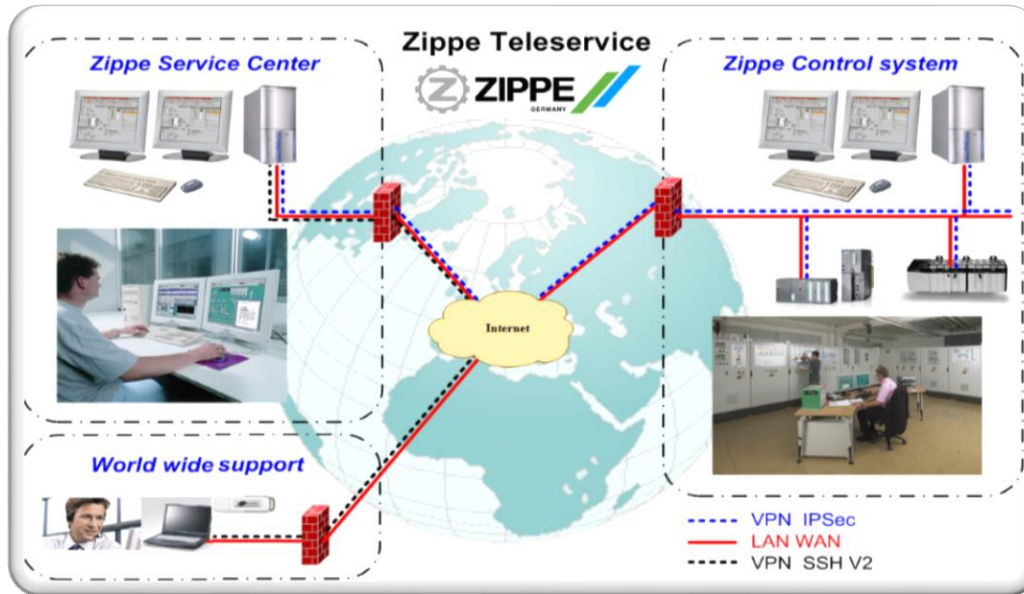

Smart Access via B-ZMART® app

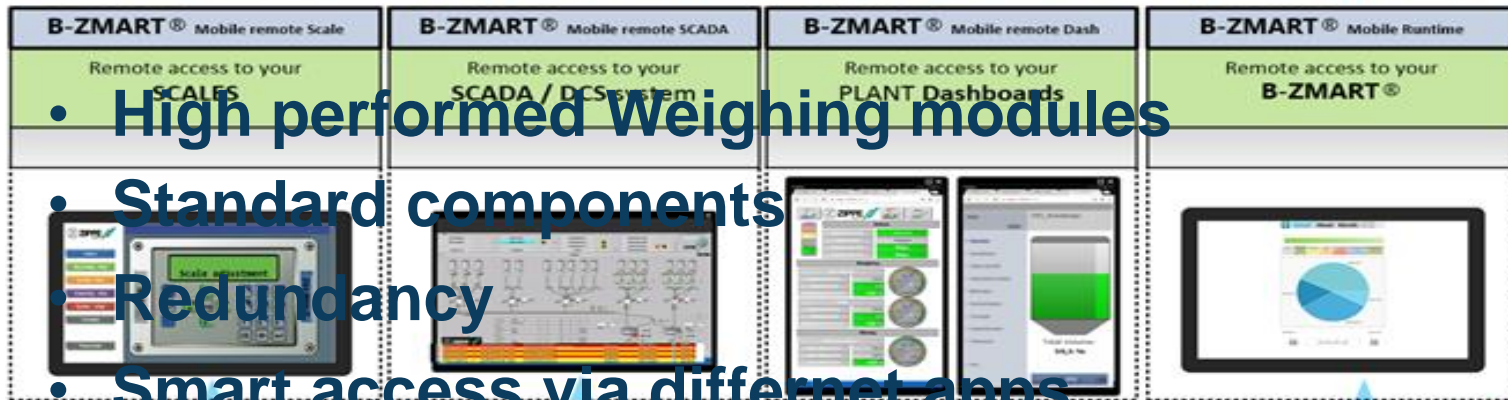

The screenshot displays the B-ZMART dashboard interface. On the left, a sidebar contains several widgets: a globe icon with a magnifying glass, a 'glasstec' logo, and a 'Z' icon. Below these are three location buttons: 'Duesseldorf', 'Wertheim' (highlighted with a green arrow), and 'Venice'. Further down, a 'Wertheim' widget shows a value of '112.3' and 'Plant Performance'. Below that, an 'OEE' widget shows '109,90'. At the bottom left, a 'B-ZMART Runtime' widget shows '112.3 %' with a green circular progress indicator. The main area is a map of Europe with location pins for 'Amsterdam', 'Luxembourg', and 'Berlin'. A green circular progress indicator around the Berlin pin shows '70,44 %'. The map also shows various countries and cities, including Norway, Denmark, Poland, Germany, France, Italy, Spain, Portugal, Morocco, Tunisia, Greece, Turkey, Syria, and Iraq.

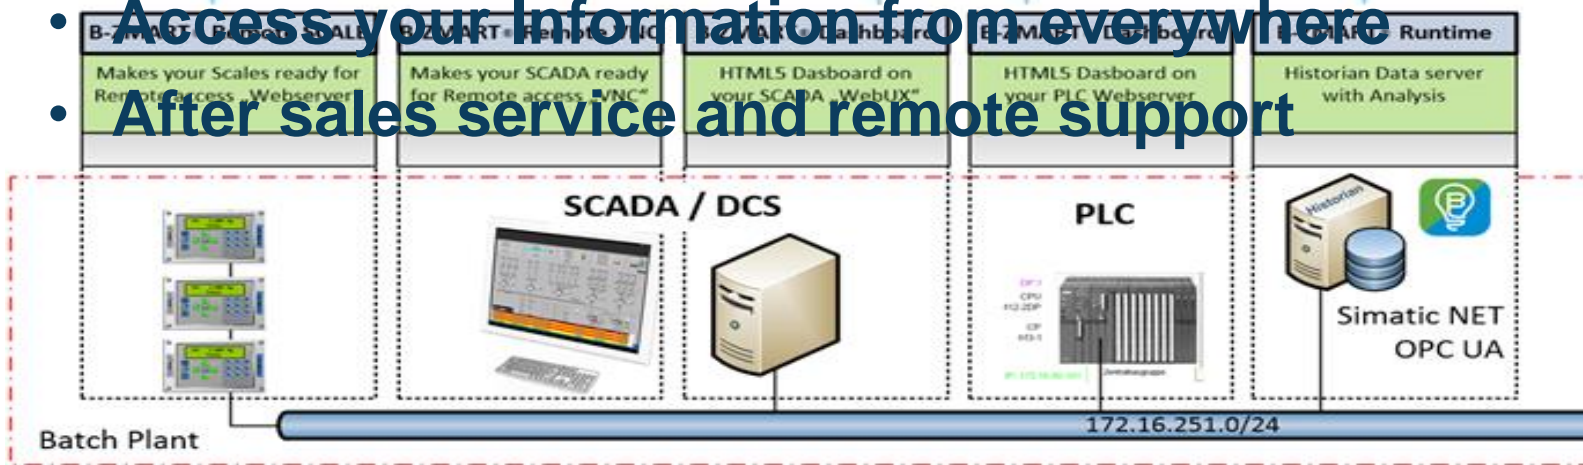

- 24/7 hotline
- Remote control via VPN, 3G, ...
- Spare parts
- Manuals and Tutorials
- *Support via Augmented Reality*

B-ZMART® Mobile

fulfills real-time access to your batch plant at ones' fingertips – anytime, anywhere

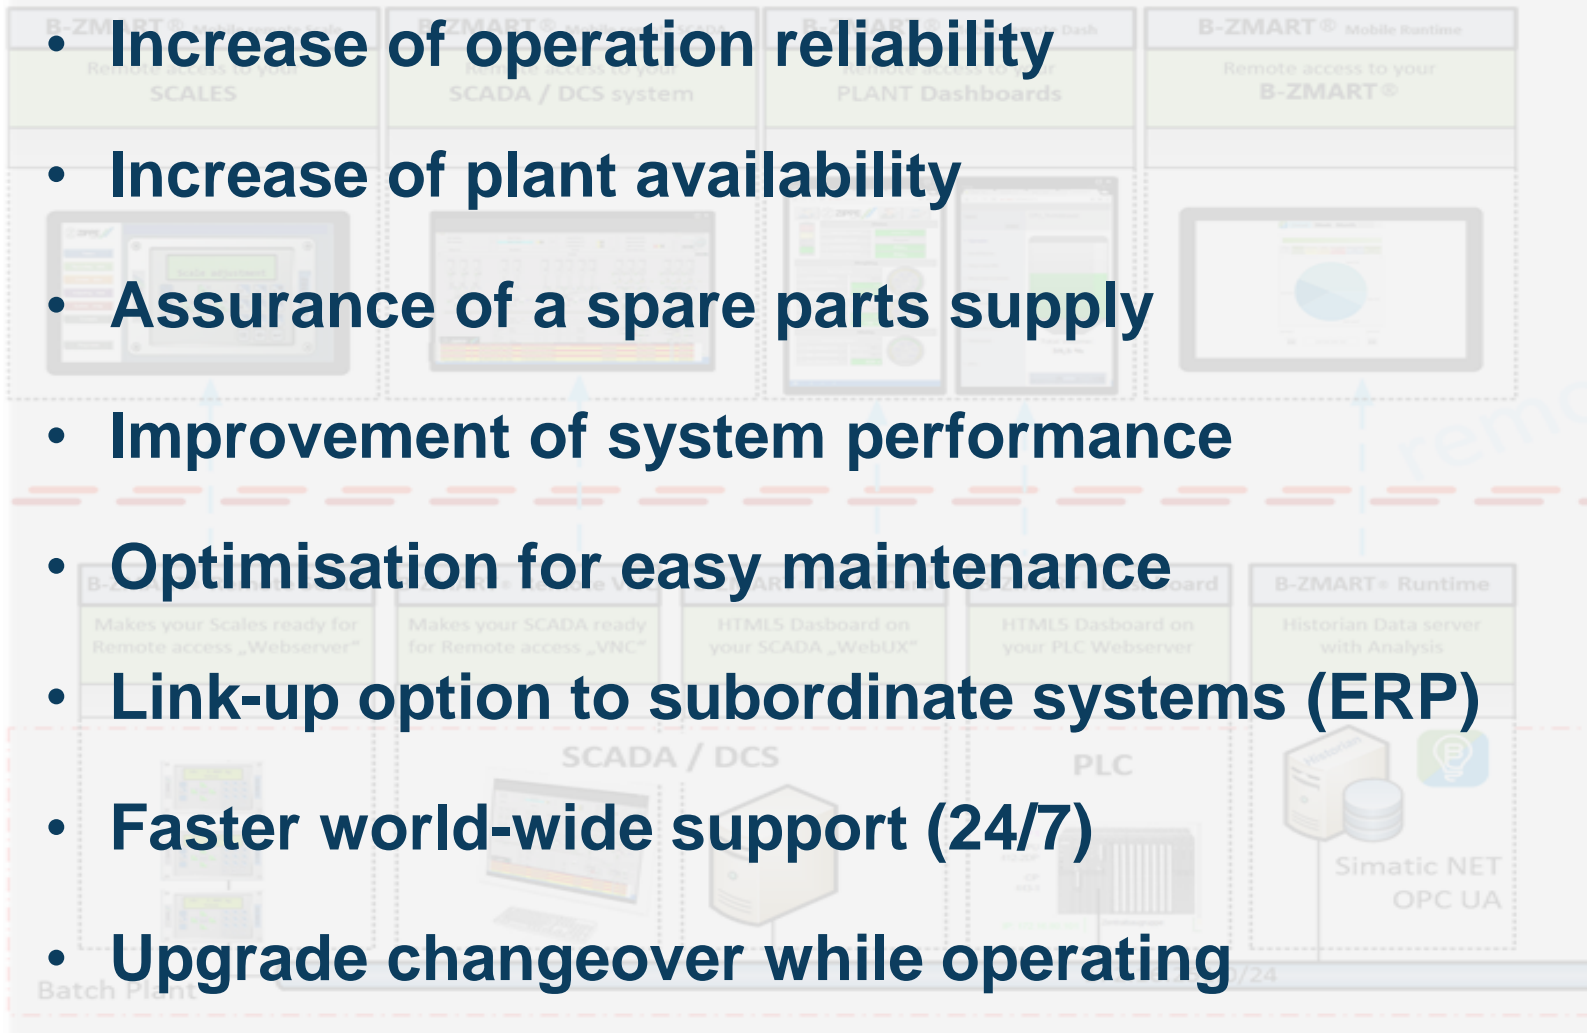

- High performed Weighing modules
- Standard components
- Redundancy
- Smart access via different apps
- Charts and Dashboards help you to improve productivity
- Access your Information from everywhere
- After sales service and remote support

Benefits: Mobile

fulfills real-time access to your batch plant at ones' fingertips – anytime, anywhere

- **Increase of operation reliability**
- **Increase of plant availability**
- **Assurance of a spare parts supply**
- **Improvement of system performance**
- **Optimisation for easy maintenance**
- **Link-up option to subordinate systems (ERP)**
- **Faster world-wide support (24/7)**
- **Upgrade changeover while operating**

Thank You !!!
