# GLASS INDUSTRY INSIGHTS & BUSINESS POTENTIAL

The **Global Glass Manufacturing Market** is projected to reach **USD 210+ billion by 2030**, driven by demand from construction, automotive, and solar industries.

The **Middle East Construction Boom** is expected to exceed **USD 2.4 trillion** in ongoing and planned projects — a major driver for glass demand.

**Solar Glass Demand** in the GCC is rising rapidly due to national sustainability and clean energy strategies.

UAE, KSA, and Egypt are investing in **megaprojects** (like NEOM, New Capital Egypt, and Expo Legacy), generating long-term needs for architectural and advanced glass.

Demand for **automated, high-speed production** & digital glass tech solutions is increasing — creating opportunities for machinery and tech suppliers.

# WHY EXHIBIT AT IGMS 2026

IGMS DUBAI

# INDIA'S GLASS INDUSTRY A TRUSTED GLOBAL FORCE

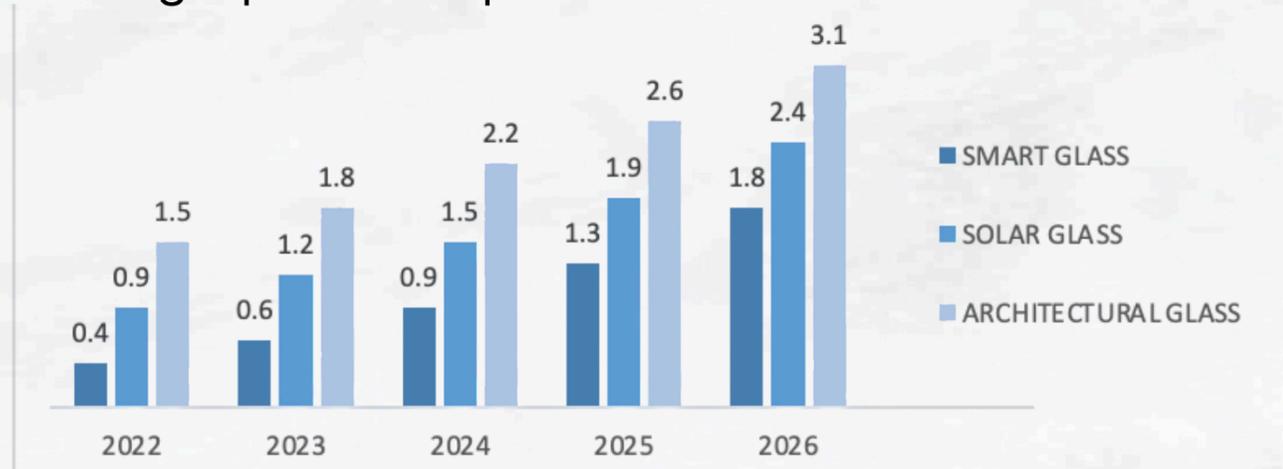

- **Global Recognition:** India ranks among the world's top producers of float glass, machinery, and furnace technologies.
- **Proven Expertise:** Indian companies offer cost-efficient, high-quality solutions across the full glass manufacturing value chain.
- **Trusted Trade Partner:** Favorable trade frameworks like the India-UAE CEPA support fast-track access and reduced tariffs.
- **Strategic Exposure:** IGMS gives access to buyers from GCC, Africa, and South Asia, including factory owners, EPCs, and government buyers.

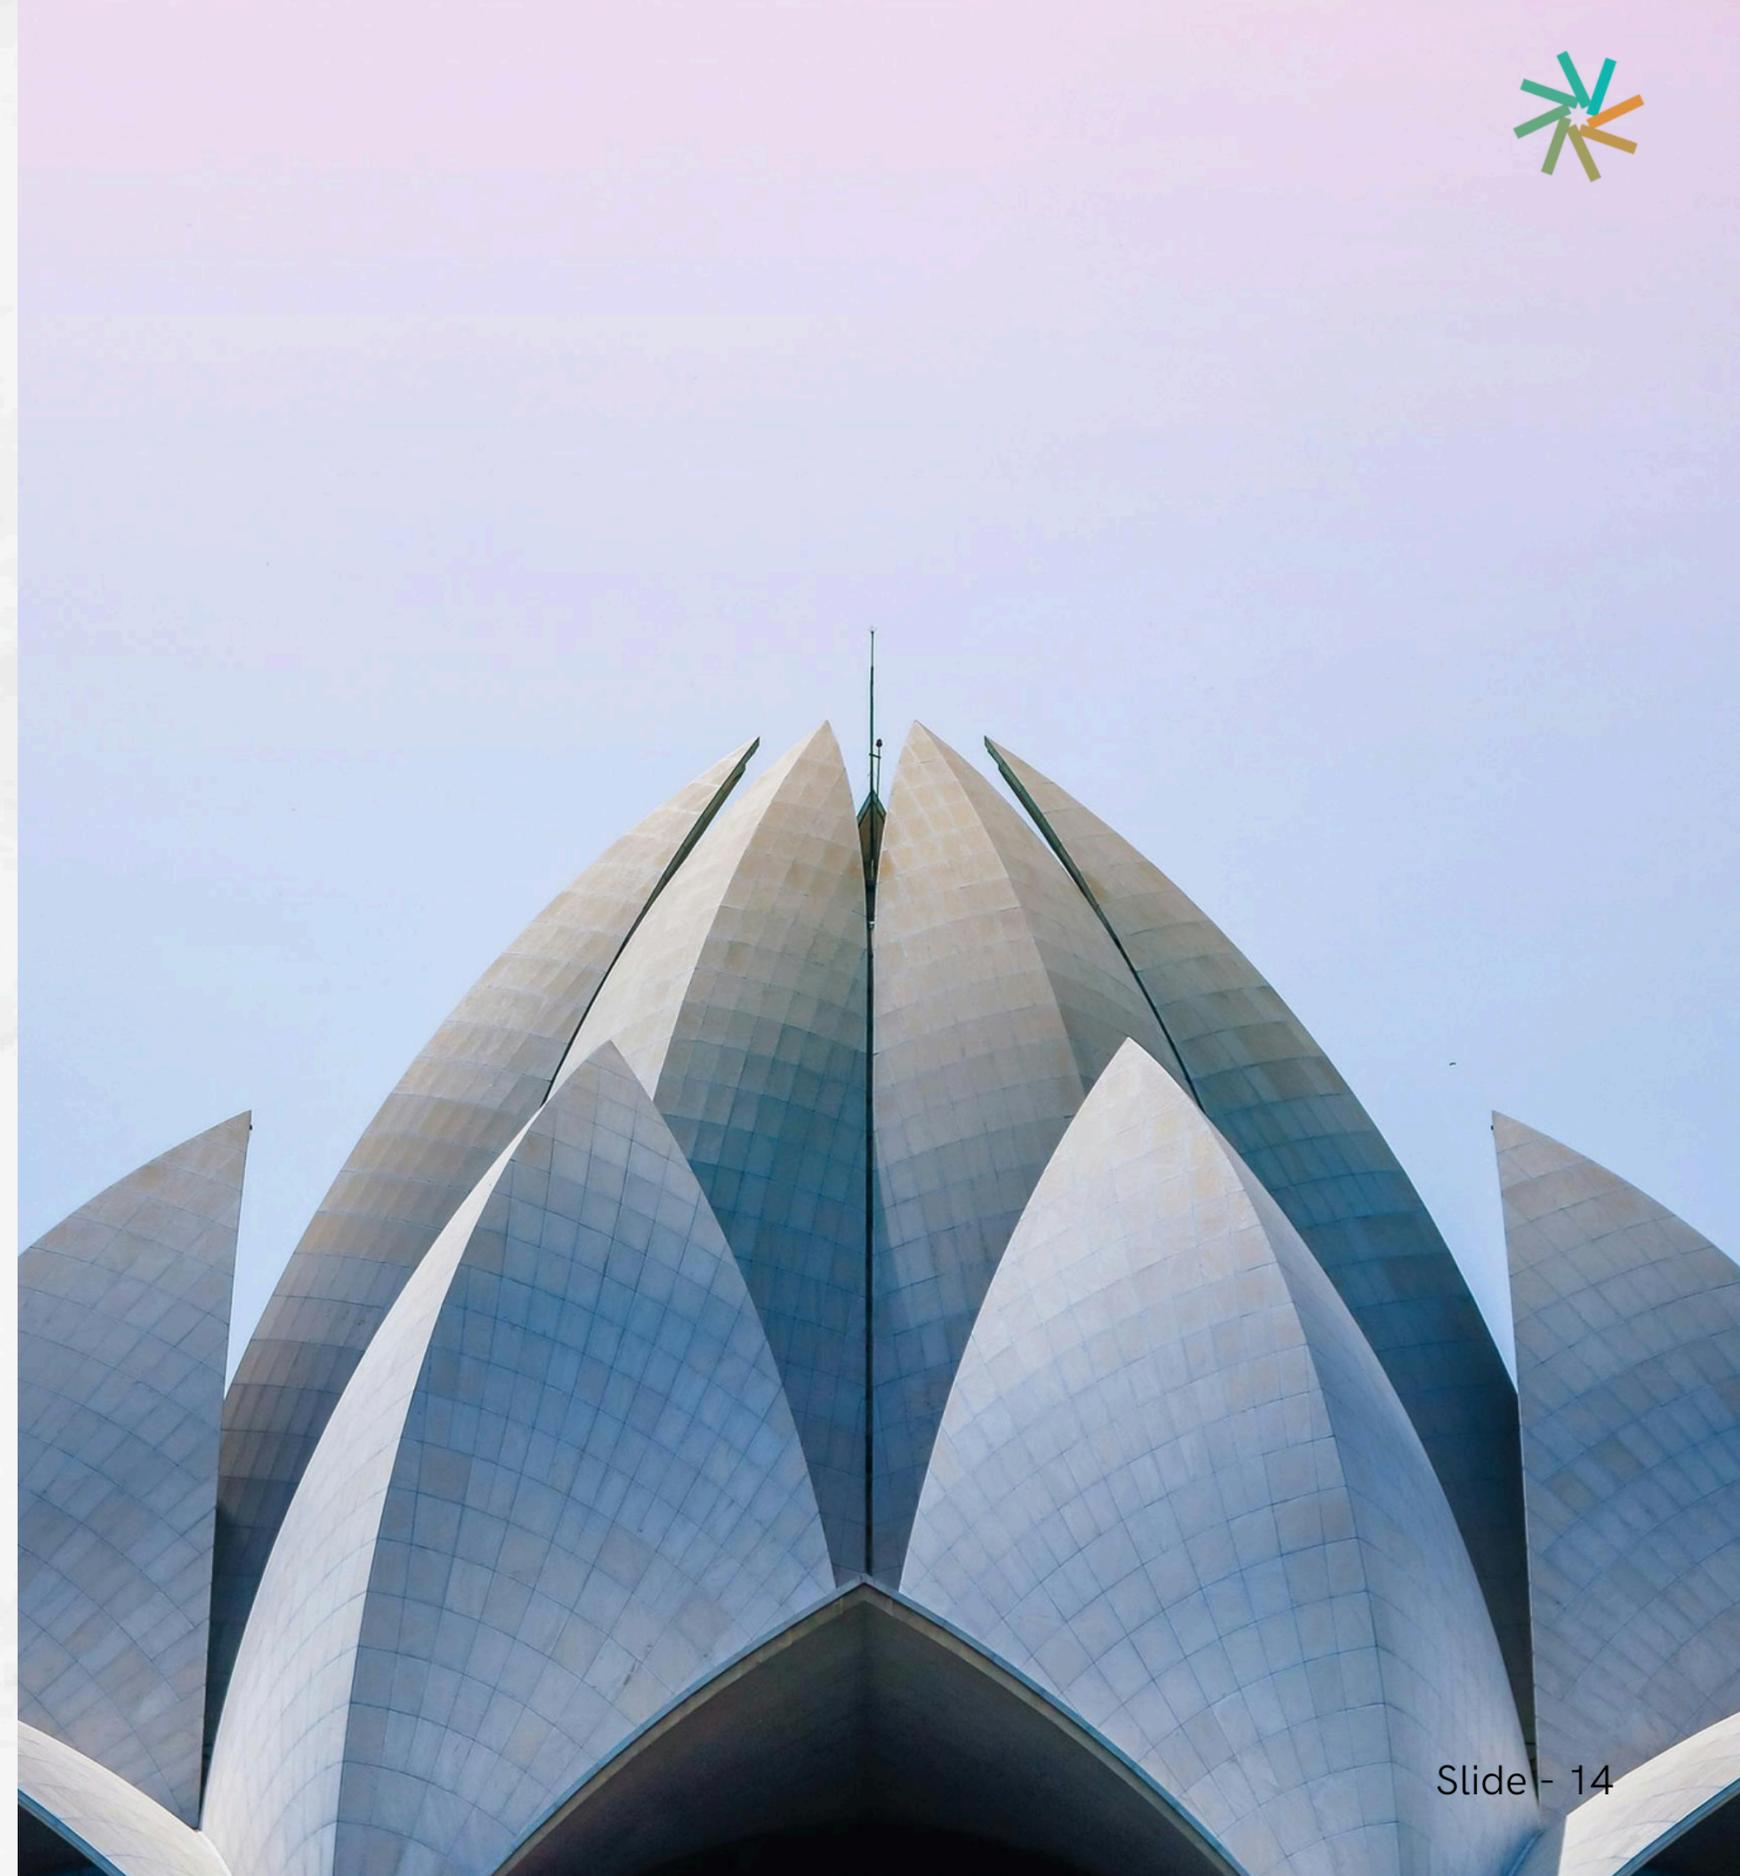

# TAP INTO HIGH-GROWTH REGIONAL DEMAND

- **Untapped Demand:** The Middle East’s import-reliant glass sector is expanding rapidly, seeking suppliers of architectural, solar, and high-performance glass.
- **Export & Partnership Opportunities:** Leverage IGMS to unlock new distribution networks, export routes, and joint ventures.
- **Indian Pavilion Visibility:** Exhibit under the AIGMF Pavilion to boost exposure, brand trust, and press engagement.
- **AIGMF Collaboration:** Enjoy dedicated support on logistics, marketing, and positioning through our strategic partnership with AIGMF.
